

## Repeater RX Label V05

***Directed***  
E L E C T R O N I C S

Designed and Engineered  
in the USA

MODEL: SIRWRR1      FCC ID: UX3TWISIRWRR1

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device must not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Inquiry:**

Please address the following two questions. 1) Is it permissible for a Part 15 device to be sold without a users manual (or other paper/electronic document) so long as all required statements (id number, rf hazard and interference warnings, etc...) are placed directly on the device? 2) If all required statements are placed on a device, must a users manual (or other paper/electronic document) be provided when applying for certification? Thanks. JDB

**Response:**

If the device is sold with the user manual attached to the product like a label, then the text of that label/manual document should be submitted as the User Manual in the FCC application for Certification. Please note that a User Manual exhibit is required for most Certification applications.
